Quite naturally the seneral belief is that its purpose is to make a tesming buil market. In that respect it has certainly met with success thus far.

There are factors in this market, however, that excite uncasiness and success.

There were indications in the course of the market that the deferred pool operations in Reck Island were about to begin, is uying orders were distributed quite liberally from several strong sources, and the price of Rock Island shares, showed a mild tendency to silfien. It is believed to be the intention of the pool to move with deliberation, but with the steady purpose of putting the price of Rock Island stock considerably higher than it is new.

minds, over forty, from the world and the result would be utter impoverishment. Sophocles was eighty when the Greek Senate wanted to retire him on account of age, and he read his last play, just completed. It was his best, and the Greek Senate proclaimed him the wisest and most creative of them all. What was true then is yet true, and there is no doubt that unless a man is disposed or has abused himself physically, he is better able mentalty officer corty than before."

Dr. Frederick Peterson—about fifty—alienist and specialist in diseases of the brain said that he had not read Dr. Osler's address.

before a peaceful departure by chloroform."

If Prof. Osler is right in his theory,
a great many old birds want to know
what he has meent all these years in
giving his skill to saving the lives of
men over sixty. Nobody worked harder to save Senator Hanna than Prof.
Osler, and when former Secretary of
War, Aiger was ill, Dr. Osler was in
constant attendance on him. And there
is no indication anywhere that Dr.
Osler has any idea that his own usefulness in the world is at an end. He
is just departing for a new and much
larger field of work than he has ever
undertaken before, and it is pointed
out by those who disagree with him
that there is no field in which a useless
man can do quite so much harm as Another cure by Cuticura is told of by Mrs. Caroline Cable, of Waupoca, Wis., in the following grateful letter: "My husband suffered agony with salt rheum on his hands, and I had to keep them bandaged all the time. We tried everything we the time. We tried everything we could get, but nothing helped him until he used Cutieura. One set of Cutieura Soap, Ointment, and Pills cured him entirely, and his hands have been as amooth as possible ever since. I do hope this letter will be the means of helping some other sufferer."

that there is no field in which a useless man can do quite so much harm as the field of medicine.

President Roosevelt is getting on toward fifty, vet he is struggling along trying to do things, and has succeeded in convincing some folks that he still possesses capacity. There are many other gentlemen between forty and sixily who were under the delusion that they were doing some good in the world until they read Dr. Objec's speech yesterday. They will probably rush for an anaesthetic now to wind up their lives before they do some great harm. Caswell, Massey & Co.'s 'LION BRAND" of COD LIVER OIL CUFFS 25d. A PAIR. withPEPSIN 2 QUININE.
